

A 6x6 grid with numbers 1-9 and a continuous path. The numbers are placed in the following cells (row, column): (1,1)=4, (1,3)=9, (1,4)=6, (1,5)=2, (2,1)=1, (2,2)=2, (2,3)=5, (2,4)=2, (2,6)=5, (3,1)=9, (3,2)=5, (3,4)=8, (3,5)=7, (4,1)=8, (4,2)=7, (4,3)=6, (4,5)=5, (5,2)=6, (5,4)=7, (5,5)=9, (5,6)=1, (6,2)=4, (6,4)=8, (6,5)=4, (6,6)=5. A continuous path of grey lines connects the numbers in the following order: 4 (1,1) -> 1 (2,1) -> 9 (3,1) -> 8 (4,1) -> 6 (5,1) -> 4 (6,1) -> 2 (2,2) -> 5 (2,3) -> 9 (3,3) -> 6 (4,3) -> 8 (4,4) -> 7 (4,5) -> 5 (4,6) -> 2 (1,5) -> 6 (1,4) -> 2 (2,4) -> 8 (3,4) -> 7 (3,5) -> 1 (5,6) -> 5 (6,6) -> 4 (6,5) -> 8 (6,4) -> 7 (5,4) -> 6 (5,3) -> 5 (3,2) -> 2 (1,2) -> 4 (1,1).
