

A 6x6 grid with numbers and paths. The numbers are placed in the following cells (row, column): (1,1)=4, (1,2)=7, (1,3)=6, (1,4)=3, (1,5)=7, (1,6)=4, (2,1)=8, (2,2)=9, (2,3)=1, (2,4)=3, (3,1)=5, (3,2)=4, (3,3)=3, (3,4)=8, (3,5)=6, (4,1)=6, (4,2)=1, (4,3)=3, (4,4)=8, (4,5)=2, (4,6)=1, (5,1)=4, (5,2)=5, (5,3)=3, (5,4)=2, (5,5)=7, (5,6)=5, (6,1)=9, (6,2)=3, (6,3)=7, (6,4)=5. The paths are shown as gray lines connecting the numbers. The paths are: 1: (2,3) to (1,5) to (2,4) to (3,3) to (4,3) to (5,3) to (6,3); 2: (4,5) to (4,4) to (3,4) to (3,3) to (2,3) to (2,2) to (1,2); 3: (1,4) to (2,4) to (2,3) to (3,3) to (3,4) to (4,4) to (4,5) to (5,5) to (6,5); 4: (1,1) to (1,2) to (2,2) to (2,3) to (3,3) to (3,4) to (4,4) to (4,5) to (5,5) to (6,5); 5: (3,1) to (3,2) to (4,2) to (4,3) to (5,3) to (5,4) to (6,4); 6: (1,3) to (2,3) to (2,4) to (3,4) to (3,5) to (4,5) to (4,6) to (5,6) to (6,6); 7: (1,5) to (2,5) to (2,6) to (3,6) to (4,6) to (5,6) to (6,6); 8: (2,1) to (2,2) to (3,2) to (3,3) to (4,3) to (4,4) to (5,4) to (5,5) to (6,5); 9: (6,1) to (6,2) to (5,2) to (5,3) to (4,3) to (4,4) to (5,4) to (5,5) to (6,5).
