

A 6x6 grid with numbers and paths. The grid is divided into four 3x3 quadrants by a vertical line between columns 3 and 4, and a horizontal line between rows 3 and 4. Numbers are placed in the top-left, top-right, and bottom-right quadrants, while the bottom-left quadrant is empty. Paths are shown as thick grey lines connecting diamond-shaped nodes. Some paths are complete, while others are partial, ending at diamond nodes.
