

A 9x9 grid with numbers and diamonds. The grid is divided into three 3x3 sub-grids by thick black lines. The numbers are placed in the following cells (row, column): (1,1)=7, (1,4)=2, (1,5)=9, (1,6)=7, (1,7)=8, (1,8)=6, (1,9)=4, (2,1)=4, (2,2)=5, (2,3)=3, (2,4)=7, (2,5)=5, (2,6)=2, (2,7)=9, (2,8)=7, (2,9)=2, (3,1)=2, (3,2)=3, (3,3)=5, (3,4)=4, (3,5)=1, (3,6)=3, (3,7)=4, (3,8)=8, (3,9)=5. The diamonds are placed in the following cells (row, column): (1,2), (1,3), (1,8), (1,9), (2,1), (2,4), (2,6), (2,7), (2,8), (2,9), (3,1), (3,2), (3,3), (3,4), (3,5), (3,6), (3,7), (3,8), (3,9). The diamonds are connected by a thick grey line that forms a continuous path through the grid.
