

The image shows a 3x3 grid of 9 4x4 mini-grids. Each mini-grid contains numbers and diamond-shaped nodes. The goal is to connect the diamonds with lines of the same number without crossing or overlapping.

Grid 1 (Top Left): Numbers 1, 9. Diamonds at (1,1), (1,3), (2,2), (3,1).

Grid 2 (Top Middle): Numbers 3, 8, 5. Diamonds at (1,2), (2,1), (2,3), (3,2).

Grid 3 (Top Right): Numbers 9, 8. Diamonds at (1,3), (2,2), (3,3), (3,4).

Grid 4 (Middle Left): Numbers 8, 5, 4, 6. Diamonds at (2,1), (3,2), (3,3), (3,4).

Grid 5 (Middle Middle): Numbers 1, 5. Diamonds at (2,2), (2,3), (3,2), (3,3).

Grid 6 (Middle Right): Numbers 9, 7. Diamonds at (2,1), (2,2), (3,1), (3,2).

Grid 7 (Bottom Left): Numbers 3, 7, 5. Diamonds at (2,1), (2,2), (3,1), (3,2).

Grid 8 (Bottom Middle): Numbers 5, 7, 9, 2, 8. Diamonds at (2,1), (2,2), (3,1), (3,2).

Grid 9 (Bottom Right): Numbers 4. Diamonds at (2,1), (2,2), (3,1), (3,2).
