

A 10x10 grid with 30 black circles scattered across it. The circles are distributed in a way that suggests a random process, with some areas having more circles than others. For example, there are 4 circles in the first column, 3 in the second, 2 in the third, 1 in the fourth, 2 in the fifth, 1 in the sixth, 2 in the seventh, 1 in the eighth, 2 in the ninth, and 3 in the tenth column. The rows also show varying counts, with some rows having 0 circles and others having 3 or 4.
