

A 10x10 grid with 30 black circles scattered across it. The circles are distributed in a way that suggests a random or pseudo-random pattern. The grid lines are thin and gray, while the circles are black with white centers. The circles are of uniform size and are scattered across the grid, with some appearing in clusters and others in isolation. The overall distribution is somewhat uniform, with a slight concentration of circles in the lower half of the grid.
