

The puzzle is a 3x3 grid of 30 cells. The grid is divided into three 2x2 quadrants by a central cross. Each quadrant contains a 2x2 sub-grid of cells. The cells are numbered 1 through 9, and some cells contain a grey circle. The puzzle is solved by connecting the numbered cells with lines that do not cross and do not share a cell. The solution is shown as a continuous path of grey lines connecting the numbered cells in a specific sequence.
